

**REMARKS**

Applicant really appreciates Examiner for the arduous work to examine the instant application, and for *allowance of claims 1-20, 24 and 25*.

Anyhow, regarding claim 26, Applicant has a viewpoint different from Examiner's statement. In fact, claim 26 recites, "**ONE** (emphasis added) of said stiffener and said housing defining a spring finger engaged with the other" which includes the subject matter of "said stiffener defining a spring finger", *rather than only the housing defining the spring finger*, described in the original disclosure as a **preferred** embodiment of the present invention. Therefore, the original disclosure provides adequate support for the claimed invention in claim 26, and thus the claimed invention in claim 26 is essentially **NOT** excluded by 35 U.S.C. 112, first paragraph for "failing to comply with the written description requirement". That is, the full citation of claim 26 "**ONE** of said stiffener and said housing defining a spring finger" essentially meets the written description requirement of 35 U.S.C. 112, first paragraph, without adding new matter to the instant application.

It is respectfully requested that the Examiner reconsider the allowability of claim 26.

In view of the above claim amendments and remarks, the invention claimed in claim 26 is believed to be in condition for allowance and an action to such effect is earnestly solicited.

Respectfully submitted,

Hao-Yun Ma
